**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 13 and 19-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 13 recites the limitation "the projection of the arms" in line 1. There is insufficient antecedent basis for this limitation in the claim.
4. Claim 19 recites the limitation "the face" in line 9-10 and 12. There is insufficient antecedent basis for this limitation in the claim.
5. Claim 20 recites the limitation "the building floor" in line 2. There is insufficient antecedent basis for this limitation in the claim.
6. Claim 20 recites the limitation "the position" in line 2. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1-4 and 16-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Baltes EP Patent 0 297 684 A1.

Art Unit: 3637

Baltes teaches all the limitations of the above claims including an apparatus with an energy source or hot air gun (10), a structure (1), frame (9), guide (12, 13), rollers (2), and a method of positioning the hot air gun on the carriage (1) and moving across the floor covering (3), maintaining first reference structure (2) and second reference structure (12, 13) rotatable or hinged (column 2, lines 24-27).

9. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

10. Claims 1-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Hubbard et al.

Hubbard et al. teaches all the limitations of the above claims including an apparatus with an energy source or hot air gun (20), a structure (22), adjustable frame or cradle (column 6, lines 1-5), guide (30, 32, column 5, lines 30-40), rollers (62, 64), handle (36), and projecting arms (see Figure 1) with rotating members (24).
